

Jackrabbit Level One and Two

Your child will need classic skis, boots, and poles. Waxless skis are great for simplicity. Snow suits are still recommended at these ages because children will be playing in the snow to further develop their technique. Mittens (better than gloves), toque, and face covering (e.g., Buff) are needed. Consider dressing in layers (base layer or thermal underwear). Bringing extra mittens to switch wet/cold ones at snack time may be necessary.
